Description:

In a tender and uproarious memoir, singer-songwriter Rodney Crowell reveals the good, the bad, and the ugly of a dirt-poor southeast Texas boyhood. The only child of a hard-drinking father and a holy-roller mother, acclaimed musician Rodney Crowell was no stranger to bombast. But despite a home life always threatening to burst into violence, Rodney fiercely loved his mother and idolized his blustering father, a frustrated musician who took him to see Hank Williams, Jerry Lee Lewis, Carl Perkins, and Johnny Cash perform. Set in 1950s Houston, a frontier-rough town with icehouses selling beer by the gallon on payday, pest infestations right out of a horror film, and the kind of freedom mischievous kids dream of, *Chinaberry Sidewalks* is Rodney's tribute to his parents and his remarkable youth. Full of the most satisfying kind of nostalgia, it is hardly

recognizable as a celebrity memoir. Rather, it's a story of coming-of-age at a particular time, place, and station, crafted as well as the perfect song.

I have loved Rodney Crowell since hearing his 1st album, and before I knew who he was on Emmylou's earliest albums. I found his memoir funny, sad, loving & touching, much like his music. Sometimes so open and honest, auto correct suggested horny for honest, lol & yes that too in his descriptions of his constant pursuit of girls as a teenager & college drop out. I was surprised the Book ended so quickly, perhaps because I wasn't ready or done reading his words. He's as honest and funny as much of his songs suggest. I loved reading his story of his crazy mom & dad, they remind me of my own wacky family. I would have liked more about Roseanne Cash and his wonderful relationship with his beloved father-in-law Johnny Cash, but I respect his careful way of keeping their story private. A good read for me from one of my all-time favourite musicians.
